FOREWORD

I feel honorably pleased to submit the report of the activities conducted by our college in the academic year 2011-12. The focus of the activities in the post accreditation phase has been to meet the suggestions of NAAC Peer team committee. Committee's suggestions have proved guiding light in the improvement of institution's performance. As we are going to face reaccreditation, we feel satisfied to have met most of the suggestions of the peer team committee. Besides this, our college has also been pursuing other social and developmental activities with equal zeal and enthusiasm. The details of activities given in this report clearly show the hard work put in by the staff of our college.

It is a matter of satisfaction that our college has succeeded in overcoming many odds faced by a tribal college in remote interior area. We have made available infrastructure and all facilities of quality education for poor tribal students of this area. It is a matter of honor that our college has made its mark in N.M.U. Jalgaon by making technological up-gradation. Ours is the only college in N.M.U. to have set up smart boards in the departments of science faculty.

In spite of being tribal college, we can boast of having comparatively better infrastructure facilities in North Maharashtra University. This year with the financial assistance received from U.G.C., college has started to build exam hall, counseling room and committee room. An up-to-date and well equipped ultra modern research laboratory in Physics and Chemistry lab have been set up.

Our college is very keen to start job oriented vocational courses. College runs vocational courses like CMLT, DMLT and Certificate Course in Spoken English. Two certificate courses in Computer Science namely Web Designing and Certificate Course in Software Technology have been sanctioned by U.G.C. and those will be started from the next academic year. We have also submitted proposal for the Certificate Course in Maintenance of Electronic Components and Devices to be conducted by the Department of Physics. College also runs post graduate course in Hindi.

We have always been insistent on faculty development. The Department of Geography organized three day National level conference on "Sustainable Development of Tribals in India". The proposals for the organization of two day National conference in the subjects of Physics and Zoology have been sanctioned by the U.G.C. and those are scheduled to be organized in the next academic year. One faculty member from the Department of Marathi Dr. S.S. Pulavale has undertaken Minor Research Project. Eight faculty members from our college have been engaged in the research work for Ph.D.

To prepare our students to compete with the students of urban area, our college run "Eklavya Competitive Examination Centre". To uplift the standard of education and improve the performance of students, specially tribal students, the college with the assistance of U.G.C., implemented 'Remedial Coaching Scheme'. This scheme helps students to understand the subjects properly. The college also runs "Centre for Coaching and Career Planning". The U.G.C. provided the financial assistance for this

scheme. This committee organized workshops and lectures of eminent scholars. The college has already introduced "Karmveer Bhaurao Patil Earn and Learn Scheme" with the collaboration of North Maharashtra University, Jalgaon. This scheme is specially for the economically poor students.

The college helps poor students in every possible way. In the last academic year college gave Rs. 86,000/- for the poor students. The college also provides free hostel facility for economically backward students.

Besides this the N.S.S. unit, the Vivek Vahini, Tribal Welfare Student Committee, Debate Committee, Planning Forum, Literary Association, Science Association and Social Sciences Committee organized various Programmes for the all round development of students. The details of these activities are mentioned in the later part of this report.

The performance of the students of our college in sport is also remarkable. Eight students from our college represented North Maharashtra University, Jalgaon, in the inter-university tournament and Ashwamedha inter-university tournaments.

The Management of our College is very liberal and co-operative. Without their generous support the implementation of these activities was not possible. I am really grateful for the valuable support of the management.

I am putting this report for your perusal and kind consideration.
Thanking you

Yours faithfully

Principal

Part A: The plan of action chalked out by the IQAC in the beginning of the year towards quality enhancement and the outcome achieved by the end of the year.

The objective of NAAC is to impart quality in higher education. The suggestion for formation of IQAC an institute is a sustainability measure meant not just to evaluate and asses quality but to retain it.

To materialize the ideas, the IQAC after discussion with the departmental heads and other stake holders has prepared an action plan for ensuring academic session.
